

Порядок выполнения

Настройка окружения:

```
cd docker_images  
mkdir centos-conf  
cd centos-conf
```

Создание Dockerfile:

```
vi Dockerfile
```

Содержимое Dockerfile:

```
# Creates a CentOS image that uses cloud_user as a non-privileged user  
FROM centos:latest  
RUN mkdir -p ~/new-dir1  
RUN useradd -ms /bin/bash cloud_user  
USER cloud_user  
RUN mkdir -p ~/new-dir2  
RUN mkdir -p /etc/myconf  
RUN echo "Some config data" >> /etc/myconf/my.conf
```

Сборка нового образа:

```
docker image build -t centos7/myconf:v1 .
```
